Deposit Your Work

The deposit of articles in accordance with the UC Open Access Policy deposit is managed through eScholarship, UC's open access repository and publishing platform. Select your campus below to begin the deposit process – or to notify us that your publication is already available in another open access repository. Note: you will be asked to log in. If you don't yet have an eScholarship account, you will have the opportunity to create one.

2

Select a UC campus

From [uc-oa.info](http://uc-oa.info):

1. Select *Deposit Your Work* from the *UC Open Access Policy* menu.
2. Select your campus.

What is eScholarship?  
eScholarship is the institutional repository and Open Access (OA) publishing platform for the University of California.  
eScholarship & the University of California Open Access Policy  
eScholarship is the designated repository for the UC Open Access policy. Faculty can deposit and manage their publications using eScholarship's account management tools. [Learn More >](#)  
Benefits of Open Access  
Open Access (OA) enables you to make your publications freely available to the world. OA significantly increases the reach of your research and can result in higher citation rates. [Learn more about the benefits, to you and your readers, of Open Access.](#)  
Have Questions? Need Support?  
Visit our [Help Center](#) for resources and contact information.

New to eScholarship?  
Create an eScholarship account.  
Can I log in with my existing UC credentials?  
Login with campus credentials is coming in 2014. Until then, please create an eScholarship account to deposit your work.

Upload  Drag and drop your PDF or Word file here. Author final version recommended.

If your article is already Open Access, enter the URL here:

Descriptive Info Add keywords, etc. to make your content easier to discover.

☐ I would like to delay public access to (embargo) this deposit.  
☐ I would like to specify how others may reuse this work.  
☐ I accept the policies and terms of the Deposit Agreement.

Publication Status

Please indicate the current publication state of your submission.

Not yet published. Works that have not yet been formally published.

Examples:  
» working papers  
» preprints  
» new book-length works

Accepted for publication. Works that have been accepted for publication, but are still awaiting publication in their final form.

Example:  
» journal article that has been accepted but not yet included in an issue

Published. Works that have been formally published.

Examples:  
» journal articles which appeared in an issue  
» books with an ISBN

4. Enter a few details about your work. (Tip: Entering a DOI or PubMed ID will automatically complete the form for you!)
5. Provide a file. You can upload your manuscript or, if your manuscript is already openly available, provide a link.
6. Specify how others may reuse your work, acknowledge the deposit agreement, then click Submit.
